

WE ARE LOOKING FOR A UX/UI DESIGN INTERN

Do you want to use your creativity and design skills to help regreen and cool down our beautiful planet? Join the Justdigg team!

We are looking for a proactive and ambitious intern to join our Digital Regreening team. The focus of this internship will be on UX/UI design assignments to enhance the user experience of our soon-to-be-launched mobile application for smallholder farmers in Africa.

Location:
Amsterdam

Employment Type:
Internship

Duration:
Minimum 4 months

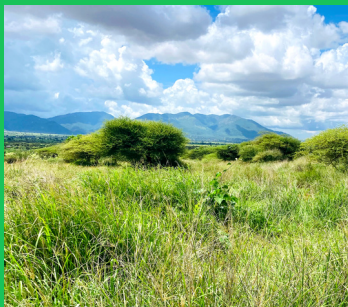

Hours:
32-40 per week

ABOUT JUSTDIGGIT

Justdigg is a fast-growing non-profit organisation that restores degraded ecosystems in Africa by making dry lands green again with a positive impact on climate, nature, and people.

To be able to reach our goal of scaling our impact to 350 million farmers by 2030 we are building a Digital Regreening platform of which an app is the most important building block. We use this platform to educate and activate farmers to apply effective regreening methods.

REQUIRED EXPERIENCE AND SKILLS

- Currently pursuing a Bachelor's or Master's degree in CMD, Media Design or a related field
- You are a passionate and enthusiastic 3rd or 4th-year student, who is looking for a challenge
- You have an affinity with the mission and vision of Justdigg.it
- You have a good command of Adobe CC: Photoshop, Illustrator, Premier Pro
- Experience with the design tool Figma is required
- Basic knowledge and experience of Wordpress (eg. LearnDash) is preferable
- Basic knowledge of and experience with HTML, CSS or similar would be desirable
- You have a strong interest and proven experience in UI/UX design, focused mostly on mobile design
- You can proficiently write in English
- You can work independently and show initiative
- You are eager to learn and like a hands-on internship
- You have an affinity for finding/making content

ROLE & RESPONSIBILITIES

You will be part of the Digital Regreening Team. Consisting of different nationalities and backgrounds, the team is currently working on building and launching an educational app focused on farmers and pastoralists in Africa. During the internship, you will need to think outside the box and consider different cultural perspectives resulting in creating UX/UI designs that fit the target audiences.

KEY RESPONSIBILITIES

- Assist in designing user interfaces and user experiences for our Regreen Application
- Analyse user feedback to optimise designs and enhance user satisfaction
- Create prototypes to communicate design concepts to the team effectively
- Find and create visuals for the app regreening courses
- Participate in team meetings and contribute to discussions on design, product strategy, and user experience
- Support the team with testing the app and transferring content into the Learn Management System.

WHAT WE OFFER

Besides a really diverse job (not a single day is the same!) and making an important contribution to a great mission, we have more to offer you:

- The opportunity to be part of a dynamic, fast-growing organisation making a real difference in Africa
- Hands-on experience in the field of application development, including working in a Scrum team
- Mentoring and guidance from experienced professionals in the tech industry
- A learning environment that encourages curiosity and innovation
- Work in the city centre of Amsterdam, with the possibility of working from home
- Internship allowance of €300, - based on 40 hours per week. Free lunches at the office.
- Great colleagues!

APPLY NOW

If you believe you are the right fit for this role and are excited about the opportunity to make a difference, please email your resume and a brief cover letter explaining why you are interested in this position and what makes you a strong candidate to info@justdigg.it.org.

Preferable start date: 5th of February 2024 for 4 or 5 days per week.

To learn more about our mission and our current regreening projects, take a look at www.justdigg.it.org.
